

Michael Murphy Graduate of Medford High School 2020

GPA 3.2 104 out of 297

Over the 4yrs, his grades clearly show a progression of commitment and persistence to his studies where he overcame several challenges in this time period.

As Captain of High School Varsity Basketball team senior year Michael's Leadership skills were clear and appreciated. One of several fine qualities he possesses that will only deepen over time.

Speaking of Michael as a person, he is confident, and ever-striving to do well in all his pursuits. When he is with his school mates or teammates he is a leader, a support, and an encouraging young person to others. When working at a local hospital, he seeks out opportunities to assist and support residents and staff. Michael is the kind of person that will meet whatever goals he sets for himself and will help others along the way. Genuine and kind and intelligent are just a few of the fine qualities this young person has and this was noted well in the letters of recommendations the scholarship committee received.

His family is so happy at all his accomplishments. Being 1 of 5 in his family, he will be the one off to college in September.

Michael's strong math skills and enjoyment of math will aid him in his plans of studying Business Administration at U Mass Lowell.

Michael said he is planning to help change the world. Just having Michael, and people, like Michael, in the world makes it a better place each day and as you walk confidently into your future endeavor, We, the SMEA membership, wish you every success and we hope to hear about you and all the good things in the future for you.
