

Molly Roderick is a recent graduate of the Somerville High School Class of 2017.

While at Somerville High School she had a strong academic record with a focus in the Dental Assistant Program and was captain her senior year on the crew team.

Molly has been a student in the Dental Assistant program for 3 years and a Skills

USA competitor her junior and senior year. She was the recipient of the silver

medal this past winter at the regional competition and competed in the state

competition this spring. Molly also received the Vocational Achievement Award

for Dental Assisting at the 2017 Career Technical Education Banquet. She is the

youngest of four children; however, Molly doesn't let that stop her from being a

force. Molly plans to attend the University of New Haven this fall to study and

earn a Bachelor's of Science in Dental Hygiene. The scholarship committee is

honored to have Molly be one of the recipients of this year's SMEA scholarship.
